FALL AWARDS

The Freshman Chemistry Achievement Award.
This award, presented by the CRC Press is a copy of the CRC Handbook of Chemistry and Physics. It is presented to the student who has shown superior achievement in our honors general chemistry class. This year’s recipient is Mr. Philip D. Konieczny.

The Undergraduate Award in Analytical Chemistry.
This award presented by the Analytical Chemistry Division of the American Chemical Society is a 9 month subscription to the journal Analytical Chemistry. It is given to a senior student who has shown outstanding performance in analytical chemistry and hopes to enter a career in the chemical sciences. This year, the award goes to Mr. Brandon M. Mills.

The Silverman Award.
The Silverman Award honors our Department’s second chairman. The award is a $100.00 gift certificate for use at the University Book Center. It is given to an outstanding senior chemistry major who has contributed to the Department’s undergraduate program. This year’s awardee is Mr. Justin Kistler.
