Subject: Northwestern University Materials Research Undergraduate Experience - Summer 2017

Materials Research Center
Northwestern University

Dear Colleague,

The Materials Research Science and Engineering Center (MRSEC) at Northwestern University offers a 9-week paid summer Research Experience for Undergraduates program. While there are many REU programs, the NU-MRSEC stands out in offering students an interdisciplinary research experience. This opportunity is open to all physics, chemistry, engineering and materials science students who are U.S. citizens or permanent residents. Please forward the announcement below to any students who you think might be interested in participating in our program. If you have a specific person in mind, which you wish to recommend, please let us know. Thank you for your help in getting the word out about this opportunity.

Sincerely,

Aleta Hagman

Summer Research Experience for Undergraduates at Northwestern University

The Materials Research Science and Engineering Center (MRSEC) at Northwestern University offers a 9-week, paid summer research experience for undergraduates. The students are paired up with some of the leading research professors in science and engineering fields. Research areas include ceramics, polymers, nanocomposites, photonics, nanoparticles, molecular electronics and biomaterials. While there are many REU programs, the NU-MRSEC stands out in offering students an interdisciplinary research experience. Students currently pursuing an undergraduate degree in science or engineering who are US citizens or permanent residents are eligible. The program dates this year are June 19 to August 18, 2017; Applications are due Feb. 15, 2017. Participants are paid a \$4500 stipend, a travel allowance, and on-campus housing is provided. For more information, please visit our website:

Research Experience for Undergraduates

The NU-MRSEC offers a 9-week summer research experience for undergraduates located near the city of Chicago. Students are paired with leading researchers in science and engineering fields. Research areas include ceramics, nanocomposites, photonics, nanoparticles, molecular electronics, and biomaterials. Participants are paid a \$4,500 stipend and travel expenses and housing are provided.

Program dates: June 19 - August 18, 2017

Applications Due: February 15, 2017

REU Class of 2016
