N OFFICE OF GRADUATE STUDIES

We are now accepting applications for the University of Nebraska's 2018 Summer Research Program, and we'd like to encourage your students to apply.

Our 10-week residential summer research experience provides mentoring and research participation while allowing scholars to preview graduate school life at a Research1 university. Participants all receive competitive stipends, room and board, travel/transport, graduate school preparation workshops, social and networking activities, and more.

Summer 2018 research programs include:

- Applied Plant Systems
- Bioenergy Systems
- Biomedical Engineering
- Chemistry
- Integrated Agronomic Systems
- Materials Research Science and Engineering Center (MRSEC)
- Minority Health Disparities
- Nanohybrid Functional Materials
- Nanotechnology Coordinated Infrastructure
- Redox Biology
- Sustainability of Civil Infrastructures in Rural Environments
- Systems Biology of Plant and Microbiome
- Unmanned Systems

Virology

Our online application makes it easy for students to apply. Priority review begins Thursday, February 1 and all applications must be completed by Thursday, March 1. Students historically underrepresented in graduate education and students from academic institutions where research programs are limited are especially encouraged to apply.

SUMMER RESEARCH PROGRAM »

Feel free to forward this to your students, as well. If you have any questions about our program don't hesitate to contact me.

Best,

ALISHA HANSHAW
