Subject: TESSA Talks

Dear all,

I am the lead student organizer of TESSA Talks, an Honors College interdisciplinary discussion group where undergraduate students participate in discussions designed to explore dynamic, relevant issues in the world around us. Every discussion topic touches on at least 2 TESSA subjects: Technology, Education, Science, Society, and Art.

This week, we will be discussing [Voting in America](#), touching on subtopics such as midterms, the electoral college, voter fraud, and the two-party system. This discussion will be held **Thursday, February 7th** on the 35th floor of the Cathedral of Learning!

Can you please share this event with the chemistry undergraduate students? This topic is relevant to any and all majors!

Thank you,
Mariya Savinov
