Subject: Undergraduate research at Caltech

Dear Colleague:

We would appreciate you sharing the following opportunities with your students.

Caltech is excited to announce two summer research opportunities available to continuing undergraduate students. Questions about these programs can be directed to Carol Casey at casey@caltech.edu or (626) 395-2887.

Interested students can join us for the following webinar to learn more:
November 21, 11:00 am (PST)

WAVE FELLOWS PROGRAM

The WAVE Fellows program provides support for talented undergraduates intent on pursuing a Ph.D. to conduct a 10-week summer research project at Caltech.

The WAVE Fellows program aims to foster diversity by increasing the participation of underrepresented students in science and engineering Ph.D. programs and to make Caltech's programs more visible and accessible to students not traditionally exposed to Caltech. The program is extended, but not limited, to underrepresented minorities, women, first-generation college students, geographically underrepresented students, educationally and financially disadvantaged students, and students with disabilities.

Eligibility: Students must be current sophomores through non-graduating seniors and must be U.S. citizens, U.S. permanent residents, or students with DACA status. A minimum GPA of 3.2 is required.

Competitive applicants will have completed sophomore-level courses in desired research field, have demonstrated through academic and/or co-curricular activities a passion for

research, and can articulate how their research interests align with Caltech's research areas. The most competitive applicants will have prior research experience.

Support: WAVE Fellows will receive a \$6420 award for the ten-week program. An additional housing/travel supplement of \$580 will be provided.

Application: Online applications are due January 12, 2020.

For more information, visit <http://www.sfp.caltech.edu/programs/wavefellows>

AMGEN SCHOLARS PROGRAM

Caltech's Amgen Scholars Program is geared towards students in biology, chemistry, and biotechnology fields. Some of these fields include biology, biochemistry, bioengineering, medical engineering, chemical and biomolecular engineering, and chemistry.

Eligibility: Students must be current sophomores through non-graduating seniors, must be attending a four-year university in the US at time of application, and must be U.S. citizens, U.S. permanent residents, or students with DACA status. A minimum GPA of 3.2 is required.

Support: Amgen Scholars will receive a \$6420 award, round-trip air transportation, and campus housing.

Application:
Online applications are due February 15, 2020.
