Repperger Research Intern Program
Now accepting applications for summer 2021!

The [Repperger Research Intern Program](#) is a 10-week educational experience, providing research opportunities for students at one of three Air Force research facilities under the mentorship of an Air Force scientist. The program posthumously honors Dr. Daniel W. Repperger, who mentored many young people during his 35-year research career with the Air Force Research Laboratory (AFRL).

Eligibility

Applicants need to meet the following eligibility criteria at the time of application:

- Be a U.S. citizen.
- Be enrolled as an undergraduate or graduate student at an accredited institution of higher education during the 2020-2021 academic year.
- Be pursuing a degree in a science, technology, engineering or mathematics (STEM) discipline.
- Have a cumulative GPA of 2.50 or higher on a 4.00 scale.

Research Locations

- Wright-Patterson Air Force Base, Dayton, OH
- Joint Base San Antonio-Fort Sam Houston, San Antonio, TX
- Carnegie Mellon University, Pittsburgh, PA

Program Dates

June 7 – August 13, 2021

How to Apply

Submit your application at the following link: <https://www.zintellect.com/Opportunity/Details/AFRL-711HPW-2021-Repperger>

Application Deadline

February 15, 2021, at 8 a.m. ET
