**Subject:** Apply Now for DOE Energy Storage Summer Internships

## EERE Energy Storage Internship Program

**Apply Now!** <https://zintellect.com/Opportunity/Details/DOE-EERE-EnergyStorage-2021>

**Deadline: January 20, 2021 4:00PM EST**

The U.S. Department of Energy (DOE), Office of Energy Efficiency and Renewable Energy (EERE) Energy Storage Internship Program offers 10-week, hands-on, practical internships at [U.S. national laboratories](#). Participants will conduct research related to the development of newer chemistries, battery designs, and manufacturing processes needed to usher in changes in energy storage.

### Why should I apply?

As a participant in the EERE Energy Storage Internship Program, you will gain a competitive edge as you apply your education, talent, and skills to research and development projects focused on energy storage. You will be under the guidance of a mentor who is a technical staff scientist or an engineer at a national laboratory. You will be able to establish connections with DOE scientists and subject matter experts that will promote long-term relationships between yourself, researchers, and DOE.

### Benefits

- Stipends: Undergraduate students receive a \$600 per week stipend. Graduate students and postgraduate students receive a \$750 per week stipend.
- Housing Allowance: \$150 per week for interns whose home location is more than 50 miles from the hosting facility
- Inbound/Outbound Travel Reimbursement: Up to \$1,000 to/from assigned location for interns whose home location is more than 50 miles from the hosting facility.

Internships may result in a virtual placement due to COVID-19 impacts.

### Eligibility

- Be a U.S. citizen.
- Be at least 18 years old by May 1, 2021.
- Meet one of the following conditions:
  - Recent graduate: Have earned an undergraduate or graduate degree in the past two years in a discipline related to energy storage.
  - Undergraduate Student: Be enrolled as a full-time student as a junior or senior at a U.S. accredited college or university during winter/spring 2021 and be pursuing a degree in a discipline related to energy storage.
  - Graduate Student: Be enrolled as a full-time graduate student at a U.S. accredited college or university during winter/spring 2021 and be pursuing a degree in a discipline related to energy storage.
