Subject: Apply Now for Upcoming Chemistry Teaching Jobs _____

TEACH CHEMISTRY

SOUTHERN TEACHERS

SouthernTeachers.com/Recruiting

Dear

Please consider sharing this message with your students who might be interested in K-12 Chemistry Teaching Jobs.

Fall is the Best Time to Apply

Come winter, K-12 private and independent schools in the South will start listing a flood of jobs with us for the 2022-23 school year.

If you apply to Southern Teachers now, you can work with your Placement Counselor to have your credentials file ready for the hiring season. You can be an active candidate when the bulk of jobs come in. As the number of openings increases, we'll review your file for each new position, and can send your application immediately to schools that suit your search.

[Apply for Chemistry Teaching Jobs Today](#)

Apply before December 1st to Attend Our Job Fair

- Our [Atlanta Job Fair](#) on February 5, 2022 is a chance to interview directly with [member schools](#)
- This fair—like all of our job search services—is entirely free to candidates

Proof of vaccination will be required to attend.

Don't Have a Teaching Certificate?

Private schools can hire teachers who are not certified, but who do have academic strength in specific subject fields, who are enthusiastic about athletics and co-curricular activities, and who have the personality and maturity to manage and engage young students.

Southern Teachers works with over 700 schools that list thousands of jobs with us each year.
