Hi everyone,

Wondering about your career options after graduate school? You should know that there are plenty of different options!

Join us tomorrow at 11 AM to learn about careers in STEM. Our speaker works at Argonne National Lab, he is a young scientist who will talk about the journey into his career and how graduate students can prepare for a career at a national lab. We will have cookies and coffee for those who would like to join in-person (Eberly 307), but you can also join via Zoom!

Hope you can attend!

Best,
