Subject: Join us in person at NCUR 2023 hosted by UW-Eau Claire

View this email in your browser.

Greetings,

NCUR is back and in-person in 2023!

As a leader committed to research at your institution, we encourage you to bring your best and brightest to the 2023 National Conference on Undergraduate Research at the University of Wisconsin-Eau Claire.

UW-Eau Claire is honored to be hosting NCUR 2023 next year and we are truly excited to bring leaders, faculty and students together for a remarkable in-person experience. We will celebrate undergraduate research, scholarship and creative activity, and we welcome students and research teams from all institutions of higher learning across all academic disciplines.

Undergraduate research has been an integral part of UW-Eau Claire for more than 50 years, and at NCUR 2023 we will showcase the thread of research that runs through the creative arts, humanities and sciences. Students will have the ability to present research and compete for cash prizes in a pre-conference setting, engage with 2-year institutions, learn about graduate studies, transfer programs and career opportunities, participate in a hands-on tour of a Mayo Clinic Health System operating room and so much more.

To round out the event, UW-Eau Claire is planning several entertaining events that will give faculty and students the chance to relax and unwind. From food trucks, karaoke, city tours and a signature event "Crossing the Bridge" in downtown Eau Claire, you do not want to miss NCUR 2023. UW-Eau Claire, located in one of the Midwest's most talked-about cities, is the place to be next spring.

SAVE THE DATE! Abstract submissions are expected to open on October 1, 2022.

We look forward to having representation from your institution at UW-Eau Claire in 2023!

If you would like to stay up-to-date with the latest communications and deadlines or have any other inquiries, please email us at ncur2023@uwec.edu.

Please take a moment to hear about NCUR from Chemistry and Biochemistry Department Chair at UW-Eau Claire and Academic Programming Director for NCUR 2023, Dr. Jim Phillips:
