**Subject:** Westlake Postdoctoral Fellowship for Women

Dear Colleagues,

I write to share an exciting initiative for supporting women in science launched by the Westlake Education Foundation. The first stage of fundraising has allowed the creation of Westlake Postdoctoral Fellowship for Women, which is now open for applications in **Life Sciences, Physical Science and Engineering** (Deadline Oct 21, 2022). This fellowship fosters the personal and career development of exceptional female postdoctoral researchers interested in working at Westlake University. Through these outstanding individuals in , we hope to inspire the general public, especially younger students, and to raise their aspirations in science-related careers.

Each awardee receives a **supplemental income** of RMB 150,000 (roughly >USD \$21,000) per year, **in addition to** their original stipend for up to 2 years during their postdoctoral stay at Westlake University. This typically brings the overall income of the candidates to >USD \$65,000/year.

The application and recommendation forms can be downloaded here:

[https://en.westlake.edu.cn/news\\_events/westlakenews/UniversityNews/202208/t20220822\\_22262.shtml](https://en.westlake.edu.cn/news_events/westlakenews/UniversityNews/202208/t20220822_22262.shtml)

I hope you can help us to spread the words, and forward this to candidates that are interested in doing postdoctoral work at Westlake University.

Best,

-Jiaxing
