Subject: GSS - 2023 University at Buffalo - Apply by April 1st

Dear Graduate Student Adviser,

The University at Buffalo, in Buffalo, NY, is holding its **40th Annual Chemistry Graduate Student Symposium (GSS) this May 24th to the 26th**. GSS is a unique symposium that, since 1983, has been organized by graduate students for graduate students. We focus on developing the professional skills of student presenters through interaction with peers, advisers, and distinguished keynote speakers. **The symposium is free of fees** and registration in prior years and has included over 150 students from universities all over the northeastern United States and Canada.

We also have the honor of hosting three distinguished keynote speakers this year, *Dr. Corey Stephenson from the University of Michigan, Dr. Jared Anderson from Iowa State University, and Dr. Robert Haufler from SCIEX*. A brief biography of the speaker is available on our website (<https://www.ubchemgss.org/keynote-speaker>), and feel free to email us (chemistrybuffalogss@gmail.com) with any questions.

To display your work at this year's symposium, in either a **poster or oral presentation**, please have your graduate student submit an abstract through our website (www.ubchemgss.org). If you do not mind, please forward this message to your department and graduate students. Attached is a tentative schedule based upon previous years' symposium schedules and the GSS 2023 flyer; we look forward to the opportunity of having your work presented here in May!

Sincerely,
Graduate Student Symposium (GSS) 2023
Department of Chemistry
University at Buffalo
The State University of New York
Buffalo, NY 14260-3000

40th Annual Chemistry Graduate Student Symposium

Symposium Dates:
May 24th - 26th, 2023

Abstract Submission Deadline:
April 1st, 2023

Location:
UB North Campus

Accepted Formats:
Posters and Oral Presentations
