Subject: Sherwin-Williams Co-Op Opportunities 2023

Hi ,

My name is Jessica Sirchen and I'm a Recruiting Coordinator with Sherwin-Williams. I wanted to reach out and inform you of the multiple Co-op opportunities that we have available in both **Engineering** and **Polymers/Chemistry!**

A little overview of our Co-ops:

- The programs are 6-months in length, beginning in May/June 2023 and running into December 2023
- Located in the great Cleveland, OH area

Our Engineering departments run continuous Co-ops throughout the year and are always interested in talking with students who have interest in areas of Chemical Engineering- Process, Commercialization or Continuous Improvement.

We would greatly appreciate your help in advertising our Co-ops or keeping us in mind if you know of students who may be interested. Below I have listed the links to our jobs page where the Co-ops can be found.

1. <https://jobsearch.sherwin.com/en/job-description?jobNumber=230001QZ>
2. <https://jobsearch.sherwin.com/en/job-description?jobNumber=230001HN>
3. <https://jobsearch.sherwin.com/en/job-description?jobNumber=22000OR3>

Should you have any questions or require additional information, we would be happy to connect further by reaching out directly to Kim Scott (Recruiter) at Kimberly.d.scott@sherwin.com.

Thank you for your help!

Best,

Jessica Sirchen

Recruiting Coordinator

The Sherwin-Williams Company
