**Subject:** Calling All Chemists! This is Your FINAL Opportunity to Join Carnegie Science Center for ChemFest this October!

**Carnegie Science Center and the American Chemical Society would like to invite you to share your profession with students during our National Chemistry Week Celebration, ChemFest this October 21-22, 2021!**

**But don't delay, the deadline to register to participate in ChemFest is THIS FRIDAY, October 1st!**

ChemFest is a two-day National Chemistry Week celebration hosted by Carnegie Science Center and American Chemical Society partners. And, this year ChemFest activities are set to return on-site to the Carnegie Science Center and will also be broadcast directly into classrooms! ChemFest is scheduled to take place from 9AM-3PM on Thursday, October 21st and Friday, October 22nd and will feature both in-person and virtual exhibitor activities, career panels, demonstrations, and presentations that highlights this year's theme: "Fast or Slow, Chemistry Makes It Go! (Reaction Rates)."

We are still in need of several professionals to host interactive exhibitor tables on-site at the Carnegie Science Center from 9AM-3PM, participate in small career panels at the Science Center at 10AM & 11:30AM, and provide pre-recorded virtual content (i.e. educational presentations, staff interviews, facility tours & demonstrations/activities) during ChemFest on Thursday, October 21st and Friday, October 22nd. All on-site exhibitors and career panel participants will receive free admission to the Carnegie Science Center (excluding *POMPEII: The Exhibition*) during ChemFest as well as a voucher for parking and the RiverView Cafe.

*\*Please note, to ensure the continued safety of our visitors, volunteers, and staff capacity restrictions and social distancing will continue to be implemented during all of our upcoming programs. We are also requiring all visitors to the Science Center (over the age of two) continue to wear a mask while inside our facilities. Should Covid-19 cases continue to rise, SciTech Day programming will transition to entirely virtual format.*

**If you are interested in learning more about these opportunities and would like register to participate in ChemFest, please complete the following registration form in full by Friday, October 1st which can be found [HERE](#).**

If you have any questions regarding ChemFest, please do not hesitate to reach out to myself, Ms. Lorren Kezmoh at [KezmohL@CarnegieScienceCenter.org](mailto:KezmohL@CarnegieScienceCenter.org), or Dr. Evonne Baldauff at [EBaldauff@Waynesburg.edu](mailto:EBaldauff@Waynesburg.edu).

We hope to see you at ChemFest this October!

Kindest Regards,

**Lorren J. Kezmoh, M.Sc.**

## ChemFest 2021 Registration Form

**\*THE DEADLINE TO REGISTER TO PARTICIPATE IN CHEMFEST THIS OCTOBER 21-22, 2021 IS FRIDAY, OCTOBER 1, 2021\***

**\*ALL VIRTUAL/DIGITAL CONTENT MUST BE SUBMITTED TO CARNEGIESTEMED@GMAIL.COM BY MONDAY, OCTOBER 4, 2021!\***

Name \_\_\_\_\_

Email \_\_\_\_\_

Professional Title/Occupation \_\_\_\_\_

Affiliated Organization \_\_\_\_\_

Please indicated how you would like to participate in ChemFest (select all that apply):

- On-Site Exhibitor (@ Carnegie Science Center)
- On-Site Career Connection Panel Participant (@ Carnegie Science Center)
- Prerecorded/Digital Content Provider (Virtual)

If you would like to participate in a Career Connection panel, please indicate what date(s) and time(s) you are available below (select all that apply):

- Thursday, October 21 – 10:00AM
- Thursday, October 21 – 11:30AM
- Thursday, October 21 – 1:00PM
- Friday, October 22 – 10:00AM
- Friday, October 22 – 11:30AM
- Friday, October 22 – 1:00PM

Please indicate how your contribution(s) will relate to theme of the ChemFest 2021: *Fast or Slow, Chemistry Makes It Go! (Reaction Rates)*:

---

---

---

Please provide a brief 2-3 sentence description of the content that you will be providing for inclusion in ChemFest program materials (Examples: "Learn all about the science of polymers with Carnegie Science Center educators, and explore the power of polymers by creating your very own slime at home or in the classroom!" and/or "Dr. Smith, Professor of Chemistry at Carnegie Science Center University, studies metabolic pathways and cellular chemical reactions in iguanas. Learn more about their research and why/how they pursued a career in the field of chemistry.")

---

---

---

If you would like to host an exhibitor table on-site at Carnegie Science Center during ChemFest, please indicate what your exhibitor space will require (i.e. number of tables, chairs, access to electricity, open floorspace, stanchions, etc.), what items you intend to bring on-site, and what your exhibit space will be showcasing. If you are not interested in exhibiting during ChemFest, please write N/A.

---
